KNOPFexudes calm, he sings songs that captivate the listener with their melancholy and harmonies and prompt them to dream.

Stories from a nomad life and roadsongs. Musically in folk storytelling/Americana, sometimes cautiously sometimes raw. «4 Cords and The Truth»! Without icing in simple solid craft. On the road since 1993, solo on stages, with his voice and earthy, acoustic guitar sound. After a musical break of several years, the album "Long Road" was released in December 2020, which was recorded acoustically with friends and individual guest musicians. For example, **Jens Krüger** "Krüger Brothers" played the banjo.

This laid the foundation for live concerts in 2021/22, throughout Switzerland and beyond the national borders. Here **KNOPF** developed a peculiarity of his singing and the accompanying guitar playing. It was during this time that he became involved in radio, and his idea gave rise to the themed program «Songwriters Lounge», which he hosts weekly on **Radio Drift.FM**. Since the beginning of this year songs have been created again, it is becoming more reduced, more direct and even more honest.
